

Chairo Christian School

Equestrian Program

Drouin, Drouin East
and Pakenham

Students in Years 4–8 at Chairo have the opportunity to join our equestrian program, which teaches various skills, including safety procedures; relationship-building with ponies, peers and instructors; resilience and perseverance; and the development of basic animal handling and riding skills to build confidence and ability.

The program runs after school until 5.00 pm in a safe, enclosed sand arena (other than the occasional trail ride around the campus). Each group consists of only four students, thus ensuring excellent supervision and instruction.

Feel free to contact us for more information about Chairo, including the equestrian program and other extra-curricular opportunities.
